SUBJECT INDEX FOR VOLUME 30, 1970

A

Abstracts
  Southern Section, A.S.A.S., 313
  Western Section, A.S.A.S., 10
Additives, chemical
  In rumen fermentation: *In vitro* effects of various drugs on rumen volatile fatty acids and protozoa, 812
Aldosterone
  Influence of, on the quality of porcine muscle, 507
Alkali requirements
  For improving digestibility of hardwoods by rumen micro-organisms, 832
Amino acid balance
  Dietary, in growing-finishing pigs: Effect on diet preference and performance, 536
Ammonium salts
  Effects of, on the production of ovine urinary calculi, 1002
Animal-floor contact areas
  Estimating, 552
Animal production
  Activities of Foundations, 663
  International programs for the improvement of, 639
  Overseas, activities of private industry, 667
  Overseas research relating to, under Public Law No. 480, 670
  Programs of FAO, 643
  The, and pastures program of the Inter-American Institute of Agricultural Sciences, 650
Animal production, efficiency of
  Molding the biological components, 849

B

Backfat thickness
  Selection for low, in swine, 844
Beef carcass characteristics
  Lipid and lipid fractions of blood and muscle as related to, 880
Beef cattle, performance of
  Use of laboratory methods to estimate the, fed mixed rations containing silage, 268
Beef, retail cuts of
  Prediction of weight and percent, using five carcass measurements, 872
Beef steers, measurements of
  Objective tenderness and maturity, 40
Biopsy samples, skin
  A quick method for taking, 771
Blood creatinine
  And uric acid concentrations in unsupplemented range cattle, 675
Blood flow
  Skin temperature and, in the tail of dairy heifers administered extracts of toxic tall fescue, 420
Breeding
  For efficiency in livestock production: Defining the economic objectives, 860
Breeding merit
  Of topcross parents for preweaning traits in Hereford cattle, 161
Buffalo, Murrah
  Comparative efficiency of milk production by Sahiwal cattle and, 253
Bull seminal plasma
  Estimation of total solids in, by refractometry, 561

C

Calcium level
  Effects of dietary phosphorus and, on performance, bone mineralization and carcass characteristics of swine, 519
Calculi, urinary
  Effect of ammonium salts on the production of ovine, 1002
Carbohydrate metabolism
  Effects of prostaglandins E_1 and $F_{1\alpha}$ upon, of ejaculated and epididymal ram spermatozoa *in vitro*, 409
Carcass characteristics
  Effect of slaughter weight and castration on, of lambs, 348
Carcass composition, lamb
  Effect of rate of gain and slaughter weight on, 27
Carcass measurements
  Effect of feeding-fasting interval on finishing pigs: Weight gain, feed utilization and physical and chemical, 382
  Prediction of weight and percent retail cuts of beef using five, 872
Carcass quality, lamb
  I. Palatability of leg roasts, 496
Carotene, alfalfa hay
  Utilization of corn silage carotene as compared to pelleted, by Holstein steers, 984
Carotene, corn silage
  Utilization of, as compared to pelleted alfalfa hay carotene by Holstein steers, 984
  Behavior of, on pasture, 203
Castration
  Effect of slaughter weight and, on carcass characteristics of lambs, 348
Castration, delayed
  Influence of, and of diethylstilbestrol implantation on the performance of suckling lambs, 970
Cation concentrations
  Effects of cold shock, dilution, glycerol and dimethyl sulfoxide on, in porcine spermatozoa, 91
Cattle, Charolais
Cattle manure
  Feeding value of, for cattle, 274
Characteristics of beef muscle
  Various chemical and histological, as related to tenderness, 191
Characteristics, ovarian
  Hypothalamo-Hypophysial and, of gilts fed methallibure, 556
Cholesterol
  Influence of dietary supplements of, and vitamin D on certain components of the blood and body of growing-finishing swine, 894
Collagen, bovine
  Hydrothermal shrinkage of, 712

Concentrations, cholesterol and protein
Effect of feeding-fasting interval on finishing pigs: Blood urea and serum-lipid, 388
Confinement, effects of
And level of feed intake on digestibility of nutrients and excretion of chromic oxide, crude protein and gross energy in the bovine, 589
Corn protein
Limiting nitrogeneous factors in, for adult female swine, 748
Corn silage fermentation
I, II. Effects of crude protein sources and sodium bisulfite on nitrogenous constituents, 455, 462
Corpora lutea in gilts
Local effects of embryos and the uterus on, 225
Corpus luteum
Function of the, in the ewe following relocation of the uterus or embryo, 935
Correlation
Between purebred and crossbred half-sibs in sheep, 475
Creatinine excretion
Effect of dietary protein intake on, and the creatinine-nitrogen ratio in bovine urine, 278
Creatinine-nitrogen ratio
Effect of dietary protein intake on creatinine excretion and the, in bovine urine, 278
Crossbreeding
Genetic consequences of, 690
Crossbreeding cattle
Experimental results on, for beef production, 694
Cutaneous moisture loss
In the bovine during heat exposure and catecholamine infusion, 95
Cyclical phenomena
In the female genital tract of swine—Histological observations, 573

D

Diet
Effect of, and ambient temperature-humidity on ruminal pH, oxidation reduction potential, ammonia and lactic acid in lactating cows, 1023
Dietary copper sulfate
Effects of, and protein on the fatty acid composition of porcine fat, 923
Dietary particle size
Effect of, on lesion development and on the contents of various regions of the swine stomach, 911
Dietary supplements, influence of
Of cholesterol and vitamin D on certain components of the blood and body of growing-finishing swine, 894
Diethylstilbestrol
Diethylstilbestrol implantation
Influence of delayed castration and of, on the performance of suckling lambs, 970
Metabolic effects of growth hormone and, in lambs. I. Acute effects of ovine growth hormone on plasma metabolite levels in fasted lambs, 229
II. Effects of daily ovine growth hormone injections on plasma metabolites and nitrogen-retention in fed lambs, 236
Diets
Comparisons of simple and complex, for baby pigs: Effect of form of feed and glucose addition, 394
Protein source and level for pregnant gilts: A comparison of corn, opaque-2 and corn-soybean meal, 364
Digestion
Composition of rumen contents and, as related to the type of feed and time of sampling in sheep, 262
Dimethyl sulfoxide
As a cryoprotective agent for freezing bovine semen, 953
Dried grains, corn distillers
With solubles in growing-finishing swine rations, 532

E

Economic objectives, defining the
Breeding for efficiency in livestock production, 860
Egg transport
In beef cattle, 430
Egg yolk extender
A tris-buffered, for boar semen, 569
Embryos
Local effects of, and the uterus on corpora lutea in gilts, 225
Survival of, resulting from spermatozoa produced by mice exposed to elevated ambient temperature, 578
Synchronous and asynchronous transfer of, in the pig, 565
Energy
Effect of, and protein on estrus, conception rate, growth and milk production of beef females, 438
Energy metabolism
In light horses, 544
Energy, metabolizable
Net energy evaluation for beef cattle rations compared with evaluations by, measurements, 450
Energy, net
Evaluation for beef cattle rations compared with evaluation by metabolizable energy measurements, 450
Energy use
Comparative, in bulls and steers, 1019
Ensiled corn plant (ZEA MAYS)
Digestibility, nutritive value and intake of, in cattle and sheep, 819
Enzyme activities
Of ruminant digestive tract epithelial tissue, 944
Epithelial tissue
Enzyme activities of ruminant digestive tract, 944
Esophageal fistulated cattle
Digestion of range forage by sheep collected by, 605
Estrous cycle patterns
Puberal estrus and ovulation and subsequent, in the ewe, 86
Estrual activity
In open Rambouillet ewes, 405
Estrus, first
Effect of natural differences in atmospheric temperature on the incidence of, following anestrus in ewes, 424
Estrus, control of
And ovulation in the pig by ICI 33828 and gonadotrophins, 791
Estrus-synchronizing compound
Excretion and tissue distribution of the, l-α-Methyl-allylthio-Carbamoyl-2-Methylthiocarbamoylhy-Drazine in swine, 402

F

Fasting sheep
Substances affecting fat mobilization in the urine of, 207

Fat mobilization
Substances affecting, in the urine of fasting sheep, 207
Fat source and level
Effect of, on utilization of fat by young pigs, 198
Fat thickness
Ultrasonic application for estimating, of beef cattle, 186
Fat, utilization of
Effect of fat source and level on, by young pigs, 198
Fatty acid composition
Of bovine skeletal muscle lipids during growth, 726
Of bovine subcutaneous adipose tissue lipids during growth, 722
Fatty acid, volatile
Glucose tolerance and effect of volatile fatty acid on plasma glucose concentration in ponies, 514
Fatty acids, rumen volatile
Chemical additives in rumen fermentations: *In vitro* effects of various drugs on, and protozoa, 812
Fatty acids, volatile
Distribution of, in rumen ingesta of steers fed concentrate and roughage diets, 601
Feed intake, level of
Effects of confinement and, on digestibility of nutrients and excretion of chromic oxide, crude protein and gross energy in the bovine, 589
Feeding-fasting interval
Effect of, on finishing pigs: Weight gain, feed utilization and physcal and chemical carcass measurements, 382
: Blood urea and serum lipid, cholesterol and protein concentrations, 388
Feeding, paired
And metabolism trials comparing barrows with gilts, 931
Feedlot performance
Potassium, phosphorus and calcium interrelationships influencing feedlot performance and phosphatic urolithiasis in lambs, 597
Fescue
Skin temperature and blood flow in the tail of dairy heifers administered extracts of toxic tall, 420
Fetal resorption
In swine caused by leucaena leucocephala (LAM.) De Wit. in the diet, 583
Fetus, number
Limitation of, in the rat, mouse and rabbit, 978

G

Gas production, *in vitro*
Effect of grain processing on, 825
Gases and odors
From stored swine wastes, 526
Genetic correlations
Heritabilities and, in growth and wool traits of Rambouillet and Romnelet sheep, 174
Glucose tolerance
And effect of volatile fatty acid on plasma glucose concentration in ponies, 514
Equine, 764
Growth hormone
Metabolic effects of, and diethylstilbestrol in lambs. I. Acute effects of ovine growth hormone on plasma metabolite levels in fasted lambs, 229
II. Effect of daily ovine growth hormone injections on plasma metabolites and nitrogen-retention in fed lambs, 236
III. Metabolic effects of DES, 241
Gonadotropins
Control of estrus and ovulation in the pig by ICI 33828 and, 791
Grain processing
Effect of, on *in vitro* gas production, 825

H

Half-sibs in sheep
Correlation between purebred and crossbred, 475
Hardwoods, digestibility of
Alkali requirements for improving, by rumen micro-organisms, 832
Heat production
In vitro rumen fermentation of alfalfa hay. Carbon dioxide, methane, VFA and, 257
Heritabilities
And genetic correlations in growth and wool traits of Rambouillet and Romnelet sheep, 174
Histological observations
Cyclical phenomena in the female genital tract of swine, 573
Holotrich protozoa
Factors affecting the establishment and number of, in the ovine rumen, 445
Hormone, luteinizing
Comparison of, and progesterone in blood and metabolites of progesterone in urine of domestic sows during the estrous cycle and early pregnancy, 795
Hydrothermal shrinkage
Of bovine collagen, 712
Hypothalamo-Hypophysial characteristics
And ovarian of gilts fed methallibure, 556

I

ICI 33823
Control of estrus and ovulation in the pig by, and gonadotropins, 791
In vitro culture system
Continuous, for ruminant research. I. Design, 618
II. Biological characterization, 624
Inbreeding coefficients
Monte Carlo studies of selection and inbreeding in swine. II, 681
Intrauterine devices
Mucopolysaccharide content and vascular function of the rabbit endometrium as affected by ovarian status and, 767

L

Laboratory methods, use of
To estimate the performance of beef cattle fed mixed rations containing silage, 268
Lesion development
Effect of dietary particle size on, and on the contents of various regions of the swine stomach, 911
Leucaena Leucocephala
Fetal resorption in swine caused by, (LAM.) De Wit. in the diet, 583
Lipid deposition
In bovine skeletal muscle during growth, 6
Lipid fractions
Lipid and, of blood and muscle as related to beef carcass characteristics, 880

Lipids
Fatty acid composition of bovine subcutaneous adipose tissue, during growth, 722
Livestock production
Breeding for efficiency in,: Defining the economic objectives, 860
Live weight in swine
Relationship between *longissimus* muscle area and, 732
Longissimus muscle area
Relationship between, and live weight in swine, 732
Lysine
Effects of, in the drinking water of growing swine, 368

M

Mammary tissue
Comparative analysis of, and milk lipids of the sow, 806
Measurements of beef steers
Objective tenderness and maturity, 40
Melengestrol acetate (MGA®)
Effects of oral, on the pregnant heifer and on her resultant offspring, 433
Metabolism trials
Paired feeding and, comparing barrows with gilts, 931
Methallibure
Hypothalamo-Hypophysial and ovarian characteristics of gilts fed, 556
Method for taking biopsy samples
A quick, of the skin, 771
Mice
Total number of fibers in muscles of several strains of, 891
Microbial level of pork skin
As affected by the dressing process, 884
Microorganisms
Nitrogen metabolism in the rumen, as a source of protein for the ruminant animal, 988
Milk lipids
Comparative analysis of mammary tissue and, of the sow, 806
Milk products, efficiency of
Comparative, by Sahiwal cattle and Murrah buffalo, 253
Monte Carlo studies
Of selection and inbreeding in swine. II. Inbreeding coefficients, 681
Mucopolysaccharide, acid
Variation in, content of porcine muscles, 360
Mucopolysaccharide content
And vascular function of the rabbit endometrium as affected by ovarian status and intrauterine devices, 767
Mucopolysaccharides, acid
And porcine muscle quality, 355
Muscle fibers
Total number of, of several strains of mice, 891
M. longissimus area of lamb carcasses
A comparison of four measurement techniques and the evaluation of operator differences, 36
Chemical and histological characteristics of the, in young bulls selected for tenderness or leanness, 717
Muscle, porcine
Influence of aldosterone on the quality of, 507
Muscle proteins
Changes in the solubility of bovine, during growth, 10

N

Net energy
Evaluations of beef cattle rations with and without stilbestrol, 291
Of corn and bird resistant grain sorghum rations for steers when fed as grain or silage, 303
NE_p
Related to intake level of baled and pelleted baled alfalfa when fed to lactating dairy cows, 102
News and Notes, 159, 335, 472, 673, 836, 1046
Newspaper
An evaluation of, as feed for ruminants, 593
Nitrogen metabolism
In nonruminant herbivores. I. The influence of nonprotein nitrogen and protein quality on the nitrogen retention of adult mares, 753
II. Comparative aspects of protein digestion, 761
In the rumen: Microorganisms as a source of protein for the ruminant animal, 988
Nitrogen, nonprotein
Nitrogen metabolism in nonruminant herbivores. I. The influence of, and protein quality on the nitrogen retention of adult mares, 753
Nitrogen retention
Nitrogen metabolism in nonruminant herbivores. I. The influence of nonprotein nitrogen and protein quality on the, of adult mares, 753
Nitrogen utilization
Ruminal and postruminal, by lambs fed heated soybean meal, 609
Nitrogenous factors
Limiting, in corn protein for adult female swine, 748
Nutrients, digestibility of
Effects of confinement and level of feed intake on, and excretion of chromic oxide, crude protein and gross energy in the bovine, 589
Nutritional regimen interaction
Sire line X,: Effects of postweaning performance of the rat, 337

O

Ovulation
Control of, and estrus in the pig by ICI 33828 and gonadotropins, 791
Effects of season and progesterone synchronization on, rate in mature western range ewes, 214
Oyster shell
Effect of, with and without roughage in beef finishing rations, 614

P

Parameters, genetic
Of German Landrace pigs estimated from different relationships, 839
Phosphatic urolithiasis
Potassium, phosphorus and calcium interrelationships influencing feedlot performance and, in lambs, 597
Phosphorus
Effect of dietary, and calcium level on performance, bone mineralization and carcass characteristics of swine, 519
Effect of source and level of dietary, on structure and composition of turbinate and long bones, 742
Influence of protein and, on the composition of the rumen ingesta of sheep, 283

Pigs, German Landrace
Genetic parameters of, estimated from different relationships, 839
Pituitary cytology, bovine
Source of LH, 73
Plasma glucose concentration
Glucose tolerance and effect of volatile fatty acid on, in ponies, 514
Polyethelene glycol
Use of, in estimating volume and weight of rumen contents, and digestion in cattle, 467
Porcine fat
Effects of dietary copper sulfate and protein on the fatty acid composition of, 923
Porcine muscle quality
Acid mucopolysaccharides and, 355
Porcine muscles
Variation in acid mucopolysaccharide content of, 360
Pork carcass muscling
: Fat, lean and bone ratios, 866
Potassium, phosphorus and calcium interrelationships
Influencing feedlot performance and phosphatic urolithiasis in lambs, 597
Preweaning traits
Breeding merit of topcross parents for, in Hereford cattle, 161
Progesterone
Comparison of luteinizing hormone and, in blood and metabolites of progesterone in urine of domestic sows during the estrous cycle and early pregnancy, 795
Effects of season and, synchronization on ovulation rate in mature western range ewes, 214
Progestins
Effect of, on lactation in the ewe, 957
Prolapse, preputial
Factors influencing, in yearling bulls, 949
Prostaglandins E_1 and $F_{1\alpha}$
Effects of, upon carbohydrate metabolism of ejaculated and epididymal ram spermatozoa *in vitro*, 409
Protein
Corn silage fermentation. I. Effects of crude, sources and sodium bisulfite on energy constituents, 455
II. Effects of crude, sources and sodium bisulfite on nitrogenous constituents, 462
Effect of dietary, intake on creatinine excretion and the creatinine-nitrogen ration in bovine urine, 278
Effect of energy and, on estrus, conception rate, growth and milk production of beef females, 438
Effects of dietary copper sulfate and, on the fatty acid composition of porcine fat, 923
Influence of protein and phosphorus on the composition of the rumen ingesta of sheep, 283
Renal, excretion by cattle deprived of water, 219
Source and level for pregnant gilts· A comparison of corn, opaque-2 corn and corn-soybean meal diets, 364
Protein digestion
Nitrogen metabolism in nonruminant herbivores. II. Comparative aspects of, 761
Protein quality
Nitrogen metabolism in nonruminant herbivores. I. The influence of nonprotein nitrogen and, on the nitrogen retention of adult mares, 753
Protein, source of
Nitrogen metabolism in the rumen: Microorganisms as a, for the ruminant animal, 988
Protozoa
Chemical additives in rumen fermentations: *In vitro* effects of various drugs on rumen volatile fatty acids and, 812
Puberty
Age at, in fall-born ewe lambs, 974

R

Rabbit endometrium
Mucopolysaccharide content and vascular function of the, as affected by ovarian status and intrauterine devices, 767
Range forage
Digestion of, by sheep collected by esophageal fistulated cattle, 605
Rations
Corn distillers dried grains with solubles in growing-finishing swine, 532
Net energy evaluations of beef cattle, with and without stilbestrol, 291
Refractometry
Estimation of total solids in bull seminal plasma by, 561
Renal clearances
In vitamin A-deficient ewes, 941
Reproduction in rats
Thyroxine administration and, 774
Reproductive behavior of *Bos Indicus*
Females in a subtropical environment. IV. Length of estrous cycle, duration of estrus, time of ovulation, fertilization and embryo survival in grade Brahman heifers, 63
Reproductive capacity of beef bulls
IV. Changes in sexual behavior and semen characteristics among successive ejaculations, 245
V. Fertility and freezability of successive ejaculates collected by different methods, 60
Reproductive efficiency
Repeatability and heritability of components of, in fine-wool sheep, 1
Reproductive performance
Influence of programmed circadian temperature changes on the, of ewes, 966
Influence of programmed circadian temperature changes on the, of rabbits acclimated to two different temperatures, 960
Influence of selection for high and low fatness on, of swine, 481
Rotational crosses of swine
Evaluation of two, on the basis of their crossbred progeny performance, 167
Roughage substitutes
Intake and digestibility by sheep of rations containing various, 309
Rumen contents
Composition of, and digestion as related to the type of feed and time of sampling in sheep, 262
Rumen fermentation
In vitro, of alfalfa hay, carbon dioxide, methane, VFA and heat production, 257
Rumen ingesta
Distribution of volatile fatty acids in, of steers fed concentrate and roughage diets, 601
Influence of protein and phosphorus on the composition of, of sheep, 283

S

Sahiwal cattle
Comparative efficiency of milk production by, and Murrah buffalo, 253
Selection criteria
For beef cattle for the future, 706
Selection, influence of
For high and low fatness on reproductive performance of swine, 481
Semen, boar
A tris buffered egg yolk extender for, 569
Sex influence
On the zinc requirement of developing swine, 736
Sire line
X nutritional regimen interaction: Effects on postweaning performance of the rat, 337
Sire X sex interactions
Effect of sire, sex and, on beef cattle performance and carcass traits, 182
Skeletal muscle lipids, bovine
Fatty acid composition of, during growth, 726
Skin temperature
And blood flow in the tail of dairy heifers administered extracts of toxic tall fescue, 420
Slaughter weight
Effect of, and castration on carcass characteristics of lambs, 348
Sodium bisulfite
Corn silage fermentation. I. Effects of crude protein sources and, on energy constituents, 455
II. Effects of crude protein sources and, on nitrogenous constituents, 462
Sorghum grain, popped
For finishing beef cattle, 634
Sorghum, rations
Net energy of corn and bird resistant grain, for steers when fed as grain or silage, 303
Source of LH
Bovine pituitary cytology, 73
Soybean meal, heated
Ruminal and postruminal nitrogen utilization by lambs fed, 609
Spermatozoa, rabbit
Influence of *in vivo* aging of, caused by infrequent collection on fertility and embryonic mortality, 549
Steroid relationships
Female sex, during the estrous cycle of the ewe, 412
Steroids, excretion of
Urinary creatinine as an index compound for estimating rate of, in the domestic sow, 79
Steroids, reproductive
In the bovine. I. Relationships during late gestation, 47
Stilbestrol
Net energy evaluations of beef cattle rations with and without, 291
Stress, effect of
On swine: Heat and cold exposure and starvation on vanilmandelic acid output in the urine, 378
Symposium on pasture methods for maximum production in beef cattle:
Breeding and managing new grasses to maximize beef cattle production in the south, 143
Competitive use of the range forage resource, 115
Effect of grazing management on animal and area output, 153
Finishing steers on pasture in northeastern Saskatchewan, 148
Manipulation of both livestock and forage management to give optimum production, 108
Pasture methods for maximizing beef cattle production in Ohio, 138
Pasture systems for cow-calf operation, 133
Protein and energy requirements for female beef cattle, 122

T

Taste responses in ruminants
I. Reactions of sheep to sugars, saccharin, ethanol and salts, 777
II. Reactions of sheep to acids, quinine, urea and sodium hydroxide, 784
Temperature
Effect of natural differences in atmospheric, on the incidence of first estrus following anestrus in ewes, 424
Effect of short-term elevated dry-bulb and dewpoint, on the cycling gilt, 374
Survival of embryos resulting from spermatozoa produced by mice exposed to elevated ambient, 578
Temperature changes
Influence of programmed circadian, on the reproductive performance of rabbits acclimated to two different temperatures, 960
Temperature-humidity, ambient
Effect of diet and, on ruminal pH, oxidation reduction potential, ammonia and lactic acid in lactating cows, 1023
Tenderness
Various chemical and histological characteristics of beef muscle as related to, 191
Thyroxine administration
And reproduction in rats, 774
Tissue composition, lean
Biological and technical sources of variability in bovine carcass, I. Technical variation in measurement of potassium, nitrogen and water, 15
II. Biological variation in potassium, nitrogen and water, 21
Trace minerals
Urea and, for finishing cattle rations, 297

U

Ultrasonic application
For estimating fat thickness of beef cattle, 186
Ultrasonics
Estimating fat depth and *longissimus dorsi* area by use of, in beef cattle, 503
Urea
And trace minerals for finishing cattle rations, 297
Uric acid concentrations
Blood creatinine and, in unsupplemented range cattle, 675
Urinary creatinine
As an index compound for estimating rate of excretion of steroids in the domestic sow, 79

Uterus
Local effects of embryos and the, on corpora lutea in gilts, 225
Utilization of fat
Effect of fat source and level on, by young pigs, 198

V

Vanilmandelic acid output
Effect of stress on swine: Heat and cold exposure and starvation on, in the urine, 378
VFA
In vitro rumen fermentation of alfalfa hay. Carbon dioxide, methane, and heat production, 257
Vitamin A levels
Estimation of critical plasma and liver, in feedlot cattle with observations upon influences of body stores and daily dietary requirements, 1012
Vitamin D
Influence of dietary supplements of cholesterol and, on certain components of the blood and body of growing-finishing swine, 894
Vitamin D_3
Influence of dietary supplements of, and various fats on cholesterol and fatty acid composition of the blood and body of growing-finishing swine, 904

W

Wastes, swine
Gases and odors from stored, 526
Weight, prediction of
And percent retail cuts of beef using five carcass measurements, 872
Wood, digestibility of
An *in vitro* technique for estimating, treated and untreated, 1005
World Bank lending
For livestock development, 656

Z

Zinc, requirement
Sex influence on the, of developing swine, 736

AUTHOR INDEX FOR VOLUME 30, 1970
